COPENHAGEN UNIVERSITY WILL SAY "NOT PROVEN."

OLD ENGLISH VERDICT WILL PROBABLY BE RETURNED ON COOK'S POLAR DATA.

COPENHAGEN, Dec. 20.—The committee of the Copenhagen University which is examining Dr. Cook's polar data will be withdrawn from the embarrassing situation as gracefully as possible by declaring that the data furnished neither sufficient proof that Cook reached the pole, or evidence that he did not. This is the situation today according to a professor of the University who is in touch with the situation.

ASTRONOMER SAYS COOK ADMITTED FAKING FLAG.

PITTSBURG, Dec. 20.—That Cook admitted "faking" the picture of the American flag at the North Pole as shown in his lectures is the statement of Dr. Brashear, the astronomer at the University of Pittsburgh. Brashear asked Cook why the picture showed no shadow of the flag, and Cook answered that the flag in the picture was one enlarged for the lantern slides.

The parents who were in the yard, saw the flames, and the mother rushed in to find the little girl on the floor with her clothing aflame. BUSINESS AND SOCIAL LEADER ON TRIAL FOR FORGERY.

M. DWIGHT FORTNER, EXTRADITED FROM FRANCE, FACING THE PROSPECT OF A FELON'S CELL.

ST. LOUIS, Mo., Dec. 20.—The case of M. Dwight Fortner, a former leader of the business and social life of St. Louis who was recently extradited from France on charge of forgery, was called for trial today. Fortner is charged with having forged the name of Henry C. Tulley to a check for \$11,000 obtained through a real estate transaction, after which he is alleged to have fled to Paris by way of New Orleans and Panama. In addition to the forgery charge, ten other indictments, based on Fortner's alleged manipulation of deeds of trust on property belonging to his wife, also hang over the defendant. Fortner came to St. Louis several years ago from Little Rock, Ark., and obtained employment as a hotel clerk. He married into a prominent family, his father-in-law being A. H. Handlan, a wealthy business man, and his sister-in-law being the divorced wife of Wm. J. Lamp, Jr.

ENDEAVORING TO ROPE IN THE RICH ARISTOCRATS.

CALIFORNIA EXCLUSIVE SUBURB MAY BE VOTED AS PART OF SAN MATEO.

SAN MATEO, Cal., Dec. 20.—No national or state election ever aroused such intense interest among the wealthy and aristocratic residents of El Cerrito and Highland parks as was manifested today in the special election held to decide whether these two exclusive suburbs, together with Hayward park and East San Mateo, shall be incorporated with San Mateo proper.

In El Cerrito and Highland park reside the cream of California aristocracy, including the De Sables, the Bowles, the Templeton Crockers and other families always found with the top liners in the society columns of the San Francisco papers. These families have no desire to mix with the common herd, so to speak, and as a consequence they have put up a heroic fight to defeat the annexation project and thereby retain their exclusiveness. But as there is a larger vote in East San Mateo and Hayward park than in the other two and as both of these districts favor annexation to San Mateo, it is probable that when the ballots are counted the residents of El Cerrito and Highland park will find that their fight was in vain.

Mrs. Mary McCarthy, of New Smyrna, was an early visitor to the city this morning, making the trip by auto. She came up for Christmas shopping.

GOTHAM HOLIDAY BUSINESS BETTER THAN LAST YEAR.

NEW YORK, Dec. 20.—With five shopping days left before Christmas, all of the retail stores in Greater New York began the week today with a big rush of business. Establishments large and small, report the holiday trade unusually good. Hotels are filled to overflowing with shoppers from out of town. If there is any difference in the business between this year and last the shopkeepers say it is in favor of this year. During the remainder of this week practically all of the stores will keep open evenings to accommodate the crowds.

SUPREME COURT DENIES PETITION OF HARRY THAW
WASHINGTON, Dec. 20.—Harry Thaw's appeal from the New York Court's decision, committing him to Mattewan will not be considered by the Supreme Court of the United States. Justice McKenna today denied the petition to review the case.

REAR ADMIRAL W. W. KIMBALL.
Rear Admiral Kimball, who was detailed to command the American forces in Nicaragua, is one of the best posted men on Central American political affairs in the United States navy. On numerous occasions when there was trouble among the little republics he has been on similar details and has acquitted himself with credit to himself and his country. He was nettled at the delay in getting to the scene of action owing to the grounding of the transport Prairie, on which he sailed from Philadelphia, but the war department withheld operations pending his arrival because of his knowledge of the country and the general confidence that is reposed in him in naval circles.

GENERAL RAILROAD STRIKE IS A GRAVE POSSIBILITY.

CONDUCTORS AND TRAINMEN OF ALL RAILROADS EAST OF THE MISSISSIPPI WILL BE AFFECTED.

PITTSBURG, Dec. 20.—Notice will be served on every railroad east of the Mississippi river today that a demand will be made before Jan. 1 by the Brotherhood of Railway Trainmen for a wage increase averaging 20 per cent. unless the railroads agree to it. About 25,000 trainmen will be affected. President Lee, of the brotherhood, says the men will insist on the request being granted. A general strike is possible.

BOSTON, Dec. 20.—Backed by 7,500 members of the Brotherhood of Railway Trainmen, and Conductors, notice will be sent to the Boston & Maine, and the New York, New Haven and Hartford railroads today demanding a wage revision. The men have stated their willingness to strike if the demands are ignored.

Christmas dinner at Mrs. L. L. Leake's now being served. The party was given by the ladies of the church. E. Fairfax Ludlow, who last season was a member of the Daily News staff, arrived Sunday night from Panama, Ohio, and joined his mother, Mrs. Montana S. Ludlow, of the Parkinson, of which she is owner and proprietor. Fairfax has a host of friends in Daytona who will rejoice in his return.

WAS THE TITLE OF A SERMON SERMON DELIVERED YESTERDAY BY A MASSACHUSETTS PREACHER

NORTH ATTLEBORO, MASS., Dec. 20.—"Where in Hell is Leopold?" was the title of a sermon by Rev. Mr. Fenkin here which today was a sensation. The preacher attacked Leopold's triumph and said that Satan was only Leopold's wickedness.

LEOPOLD TO HAVE FUNERAL OF STATE.

LEOPOLD LEAVES \$50,000,000 TO BARONESS VAUGHAN AND \$3,000,000 TO HIS DAUGHTERS.

BRUSSELS, Dec. 20.—King Leopold's request for a state funeral and a general funeral was granted today on a state funeral and a general funeral. Lawyers estimate that Leopold will be succeeded by Baroness Vaughan and \$3,000,000 to his daughters.

LAST RESORT TO SAVE THE CONVICTED BANKER.

ATTORNEYS FOR JNO. R. WALSH FILE PETITION FOR A WRIT OF REVIEW BEFORE THE UNITED STATES SUPREME COURT.

WASHINGTON, Dec. 20.—Whether John R. Walsh, former banker and railroad magnate, shall have another trial or shall be taken to Leavenworth prison without delay to begin serving the sentence of five years' imprisonment imposed on him as the result of the jury verdict finding him guilty of misapplying the funds of the Chicago National Bank, depends upon the outcome of the action of his counsel today in filing a petition for a writ of review from the United States Supreme Court. This action is believed to exhaust every recourse known to the law by which the former financier might escape imprisonment. The decision of the Supreme Court will probably not be forthcoming until after that tribunal reassembles after the holiday recess early in January.

MANY PRETTY DISPLAYS ALONG BEACH STREET.

DECORATIONS HAVE VIED WITH EACH OTHER IN SHOWING THE CHRISTMAS ATTRACTIONS.

The drapers and decorators of the various business concerns along beach street have vied with one another in producing beautiful and artistic effects for their show windows until it is risky for those who would deny themselves the pleasure of giving to pass up or down the business portion of the street.

Beginning at the Bee Hive on North Beach street, and including the Woman's Exchange, to corner of Volusia, where the Hankins' big drug store stands, where only good goods are kept, and on down the street, touching at the various central points, such as Gille's drug store, with its bright windows, Barnes Novelty Store, Church's handsome new store, which deserves special mention, Wallaces' Art Store, chock full of beautiful curios to suit the most exacting, Clark's book store and jewelry store, where choice display of Packard's hand painted china, beautiful dolls, dinner favors, etc., Chas. E. Gardiner Co.'s beautiful display of silk waists, laces, and lingerie, and a shower of pretty handkerchiefs, L. H. Rowe & Co.'s handsome display of jewelry, hand-painted china, and other articles. Young's Pharmacy, The Gruber-Morris Hardware Co., and others, and everywhere the Christmas bells and evergreens are used to heighten the artistic arrangement of the seller's goods.

Some of these windows are of course more elaborate than others. The Peck-Hendricks Company, whose windows are attracting admiring glances, especially during the evening. In the north window a Star of Bethlehem with its five points brilliantly illuminated with 22 colored electric bulbs sheds a soft luster over a variety of choice dry goods, while the south window represents a snow scene with a Santa Claus and Christmas tree. In truth, purchasers could not find any prettier or larger Christmas display in many a Southern or Northern city.

MRS. HORACE TAFT DEAD; VISITED SEABREEZE RECENTLY.

Mrs. Horace P. Taft, wife of a brother of President Taft, died Thursday afternoon of last week at the Johns Hopkins Hospital, Baltimore. The remains were shipped to the Taft home at Watertown, Conn. Mrs. Taft was operated on at the Johns Hopkins Hospital about a month ago, and a couple of weeks later left for the south to recuperate. She returned to the hospital about two weeks ago. It will be remembered that Mrs. Taft suffered at 84 years of age, making the Princess Isabella her headquarters for about a week not because of her illness, but because of her desire to be near her husband, who was in the city.

NEW SMYRNA is situated fifteen miles south of Daytona and is an ideal spot reached from Daytona by a hard surface road winding through one of the most picturesque parts of Florida.

With its ancient ruins dating back to a time when the history of man runneth not, interlaced with wires of the modern telegraph and telephone, its miles of shell streets as hard and smooth as a floor and over-arched by hoary forest giants that grew in stately grandeur during the lapse of by-gone centuries, New Smyrna is truly a place of romance and rest.

All nature here is very inviting to the tourist and pleasure-seeker. Here too is to be found the best fishing and hunting in the State of Florida.

The people are thrifty, the business men enterprising, and all unite in extending the welcome hand of hospitality to strangers. There are five church edifices for white people and an equal number for the colored population; the town has an excellent high school, a splendid public library, and up-to-date business houses.

There are any number of pretty homes for the permanent population, which numbers close to 2,000, and some very fine winter residences. There are good hotels and boarding houses where you can find accommodations to meet your requirements. Adjoining New Smyrna is as fine a section of vegetable land as can be found anywhere. This land has been divided into small farms which can be bought at reasonable prices. Some of the finest celery grown in the State is raised on this land. All other vegetables grow in abundance, and here, too, is the home of the famous Indian River oranges.

New Smyrna has no bonded indebtedness and the tax levy is low. A point that no tourist should fail to visit is the ruins of the Old Spanish Mission which stand somber and alone about one and a quarter miles southwest of New Smyrna. A good road leads to the place and the trip can be easily made by an automobile.

Silent, in the great pine flats by the margin of the forest, is this place of pilgrimage for the pious; this rendezvous for the picnicker. The ruins are extensive, and while there is no authentic history of their origin, it is presumed that the Mission was built by the Franciscans in the days when the once powerful Kingdom of Spain first planted its flag upon what is now American soil. It was built of coquina, the roof being of the same material, cut into thin slabs and covered with cement plaster. Extensive gardens surrounded it, which were enclosed by a stone wall, portions of which still remain. Visitors usually come in parties merry and curious but the spell of the place soon falls upon them and they separate to sit alone, silent and meditative, under the arches or beside the ancient well.

CORONADO
Is situated on the peninsula opposite New Smyrna and is connected by a good road and bridge over the deep current of Indian River. Here you can put aside your conventional garb, breathe in large and deep the salty tonic of the sea and enjoy yourself to your heart's content with rod and reel in row or sail boat or in the ocean surf a short half-mile away. The great varieties of fish inhabiting the river and lagoon pass through the channel from the sea beneath the bridge. From verandas, upper balconies and windows you behold the magnificent river, the distant lagoons and islands, the forest-covered peninsula and the vast reaches of the Atlantic Ocean.

HAWKS PARK
A pretty village located along the ridge above the Indian River two and one-half miles south of New Smyrna and connected with fine shell roads. There is the appearance of newness, comfort and seclusion about the place which stamps it as the abode of people who come here to enjoy the blessings of outdoor life away from places where crowds are apt to gather.

ORMOND is five miles north of Daytona, located on the western bank of the Halifax River. The location of the town permits of good drainage and perfect sanitation; the elevation is superb and ideal for winter homes. A wide bridge connects Ormond with Ormond Beach. Many fine residences are maintained on either side of the river, most of them embellished with sub-tropical flora and shrubbery, besides thrifty orange and other citrus fruit trees.

The town is very cosmopolitan, has an excellent graded school, several churches, a fine public library, up-to-date places of business and comfortable and convenient hotels and boarding houses.

Ormond has many of the Florida attractions—fine fruit, good fishing, excellent automobile, safe boating, salubrious climate and pleasant walks and drives.

At Ormond Beach is located the large Hotel Ormond, and its lesser sister, Bretton Inn. The former occupies a position overlooking the Halifax River, while the latter has as its outlook the magnificent beach and the broad Atlantic.

The walks in all directions are particularly attractive, and the arbors, shady and inviting spots and romantic nooks are crowded with rustic seats which are mute invitations to enter into the enjoyment thereof.

Besides the broad, smooth ocean beach there are many drives for carriage or automobile—long drives and short drives; drives through groves of golden oranges; drives through dense tropical forests to Spanish ruins; drives to the ancient Causeway built by the slaves of planters of long ago, and drives to the plantations of hospitable settlers, whose places are replete with the interest of Southern fruits and flowers.

One of these interesting plantations is Number Nine, located on the peninsula, five miles north of the Hotel Ormond. Here you see a fine orange grove, together with great varieties of other sub-tropical fruits and flowers.

Five miles further on you come to Moondgrove, one of the finest orange groves in this section of Florida. Moondgrove is on the headwaters of the Halifax River and is amid pretty surroundings. The place is reached by a good road [passing Number Nine] and is a drive all tourists may enjoy.

PORT ORANGE is a pretty little village situated five miles south of Daytona on the Daytona-New Smyrna hard-surface road, the scenic highway of the East Coast. The town is located on the Halifax River, over which spans a bridge from the town to the peninsula opposite. The town is well laid-out and has many pretty homes owned and occupied by residents and winter tourists. It has several churches, one of the best graded schools in Volusia county, two general stores, a real estate agency and two or three hotels.

A large number of tourists and winter residents make Port Orange winter headquarters, one of the several attractions being the excellent fishing. Port Orange is in the orange belt and a number of very fine citrus groves are nearby, where oranges, tangerines and grape-fruit hang in profusion. Some of the best trucking land in the State is to be found thereabout and excellent crops are raised.

West of Port Orange a short distance are the remains of the old Dunlawton sugar mill, a spot that is visited every year by hundreds of tourists. At one time all the country west of Port Orange, surrounding the old mill, was a vast sugar-cane and indigo plantation. The mill was operated extensively in those days but has been in disuse for thirty or forty years.

A pretty automobile or carriage drive from Daytona is via the ocean beach to the approach of the Port Orange bridge, across the bridge and then passing through Port Orange to the ruins of the celebrated old sugar mill, returning to Daytona by the road on the mainland. This drive affords a very pleasing variety of scenery.

DELAND, the county seat of Volusia County, is situated 23 miles southwest of Daytona and is reached from the latter city by an excellent hard-surface road recently constructed.

At Deland is located the John B. Stetson University, one of the leading educational institutions of the South. Because of the interest in matters educational Deland is known as "The Athens of Florida."

Stetson University has a faculty of 50 professors and instructors. There are over \$400,000 in buildings and equipment; nearly \$300,000 endowment; a Carnegie Library alone representing an investment in building, endowment and books, of more than \$120,000. The library is the United States Government depository for the State of Florida, and contains over 15,000 volumes. Science Hall, one of the newest of 16 buildings, with its furnishings, represents an outlay of \$60,000. Elizabeth Hall is one of "the most beautiful college buildings in the South."

The city has a population of about 3,500, with a thickly settled country adjacent. Deland proper is five miles east of the St. Johns River, on the high, rolling pine land of the great "Orange Ridge" of Florida.

The predominating products are oranges and grapefruit, the estimated crop from this vicinity being over 300,000 boxes this year. Grapes, peaches, pears, Japan persimmons, plums, pecans, guavas, strawberries and other fruits are grown in plenty.

In the way of public improvements are many miles of fine shell roads, an excellent high school, electric lights, a system of waterworks that is owned and operated by the city, supplying the purest water at little cost.

Nine houses of worship testify that Deland is a church-going community. Baptists, Episcopalians, Methodists (Northern and Southern), Presbyterians, Christians and Catholics, besides colored Baptists and Methodists, are represented.

The graded school offers a ten years' course, and the building which it occupies is newly furnished throughout, and is one of the most commodious and best equipped public schools in the State.

The trip from Daytona to Deland is made by automobile in a little over an hour, and there are many pretty drives in the vicinity of the county site. A good road leads to Deland Springs, five miles, a historic spot, where 60,000 gallons of water bubble from the earth every minute. From Deland automobiles proceed to Ocala, 18 miles, on shell and hard roads; thence to Lake Helen, 12 miles, on a good road, and thence to Sanford and Orlando, by hard road. There is a shell road from Deland to Orange City, 12 miles, and a good road from Deland to Lake Helen, a like distance.

LAKE HELEN
Surrounded by several pretty lakes and guarded by lofty pine trees is Lake Helen, a winter resort of no little importance. Camp Cassadaga, a spiritualistic camp-ground is situated near Lake Helen and at this place several hundred people make winter headquarters. A large lumber mill and the largest brick plant in the South are located at Lake Helen.

ORANGE CITY
The principal attraction around Orange City is the many handsomely golden orange groves. The town is situated on the water and is the largest in the world, another attraction being its water. It is at Orange City that the Florida Everglades are located. The town is a beautiful one, and peculiarly adapted to the cultivation of citrus fruits.

Heart to Heart Talks.

By EDWIN A. NYE.

GOD AND MOTHERS.

It is a beautiful saying that "God could not be everywhere, so he made mothers."

The influence and power of a mother are only less than the influence and power of God.

Napoleon recognized that fact when on being asked what was the greatest need of France he replied, "Mothers." It is a true observation that great men come of great mothers. It is as true that those nations are great whose mothers are great.

Note the Jewish people. Where will you find greater sanctity of home life, purer domestic love, than in the home of the Jew? It has been so since the call of Abraham. Chastity and devotion have ever adorned the Jewish mother. And that is why the race has produced more great men in proportion to its members than any other.

And the Germans—When Tacitus found and wrote about them twenty centuries ago the Teuton who lived in his native forest was the husband of one wife, and that wife was then, as today, industrious, domestic, virtuous. In consequence no people have ever achieved greatness in so many ways as the sturdy Germans.

And England—Statesmen may stand up in parliament to champion a budget that will build more ships to guard her shores and save her possessions, but the real bulwark of the empire is the bulwark of English homes—and mothers.

If the Anglo-Saxon dominates the world today it is because of the intelligence and purity of Anglo-Saxon mothers. If his "strength is as the strength of ten because his heart is pure," it is because of his mother's purity.

And America—The sons of the republic march in the forefront of the world as the arbiters of righteousness and the proclaimers of peace because of their mothers behind them.

Ah, mothers! Yours is power greater than that of queens on a throne. Your great province, like that of God himself, is the mothering of souls. You alone can put into living souls the divine yeast of the world's future goodness and greatness.

Do not resign your scepter of motherhood to some mere hireling of a day. Let those who will sing the songs and write the statutes of the nation. Their privilege is not commonplace beside your sovereignty. Songs and statutes will pass away; human souls are eternal.

Let us say it reverently: We know not how it is in other worlds, but in this one God himself cannot get along without mothers.

MOTHERS WHO WORK OUT CAN LEAVE CHILDREN.

Mrs. F. A. White, who is president of the Philanthropic Department of the Palmetto Club, otherwise known as the Educational and Industrial Association, says the colored people's kindergartens of Midway and Waycross both have nurseries where the mothers who work out may leave their small children, to which the limit is not strictly enforced. Also that the kindergartens have two teachers each and are doing a good work for the mothers, having a good time.

A mother who has a child in the kindergarten, she can leave it there and go to work. The children are well cared for and the mothers are well paid.

LOCAL CHAPTER WILL WELCOME VISITING MEMBERS

COUNT WAS FURIOUS WHEN THE SHIP LEFT

AND DIDN'T TAKE HIM WITH IT
—SENT WIRELESS MESSAGE FOR HIS BAGGAGE TO BE PUT IN DORY AND SET ADRIFT — KNOWN IN DAYTONA.

"To S. S. Amerika:
"Put my baggage in dory and set adrift. We will pick it up. Are two hours behind you.
Count Rasponi.

"On board S. S. Berlin."

This was the wireless message sent from the liner Berlin to the Amerika just after the former sailed Tuesday, and this was the reason, says the New York World:

Count Rasponi and his bride, who was Miss Caroline Montague, a southern beauty, had planned to sail on the Amerika for their honeymoon abroad. The count had figured that they could reach the pier in Hoboken from the Waldorf in half hour but a ferry delay held them up and they missed the steamer by three minutes.

The count was greatly excited. He rushed up and down the pier throwing his arms over his head in despair and demanding that somebody do something, he didn't care what.

Call the steamer back, he demanded. "All our baggage is on board. Call it back! How can we get to Europe?"

And the bride, with American calm, responded:

"Why, we will take another steamer."

It was discovered that the Berlin would sail from her dock a block away in two hours, so the count and countess, each carrying a suitcase, walked the block and secured passage. But a trip to Europe without baggage is not to be thought of. What was to be done. Then some brilliant mind evolved this plan:

"Send a wireless message to the Amerika and tell them to put the baggage in a boat and set it adrift. We are only two hours behind and can easily pick it up."

This was done, but whether the captain of the Amerika consented to risk the loss of a boat in order to provide the countess with gowns on the trip remains to be seen.

The Rasponis were married in Charapagoa, Oct. 17th. They have been touring this country since and are now bound for Northern Europe. They expect to reach Florence in the spring and will make their home there.

The Count and Countess Rasponi were in Daytona a few weeks ago, on the occasion of the wedding of a local couple.

VERY FINE BIRDS.

His Wife's Comment on the Result of His Hunting Trip.

The braggado of the common variety of husbands generally sooner or later falls before the keen insight that most women have of human nature in general and bragging husbands in particular. A witty southern woman was married to such a man, who, though invariably unsuccessful as a hunter, was continually boasting of his killings.

As he was returning home one evening after an all day hunting trip it occurred to him that the usual accompaniment of an empty game bag was not in accordance with his boasted skill as a hunter and that his wife would again have the joke on him, so he went to the market and purchased two brace of partridges.

As he entered the house he threw them on the table with great exultation and exclaimed, "Well, you dear old deceiver, you see that I am handy with the gun than you give me credit for being after all; now don't you?"

Minutely peered up the birds and examined them very carefully. As she looked up after the examination she said:

"Fine birds, my dear—very fine birds, are they not?"

"Robert," responded the wife, turning up her nose, "you were only just in time in shooting these birds. Tomorrow it would have been even lastingly too late"—St. Louis Republic.

Too Tired.

"Look here, my man," said an artist to a recumbent tourist, "if you stand up and let me sketch you I'll give you a shilling."

"No, thank'ee, guv'nor, but gimme ninnepence and you can sketch me laying down!"—London Mail.

ALL THAT GLITTERS IS NOT GOLD AGAIN PROVES TRUE

W. F. Rotzien, proprietor of the Palmetto brush factory on Orange street, in the north end of the city, recently had a discovery which, set him thinking about the value of gold.

While he was working in the air of his factory, he noticed a small object which he picked up and found to be a nugget of gold.

The nugget was about the size of a pea and was found in a small hole in the ground.

The family owned a flock of ducks which were kept in a small pond in the back yard.

ADDITION AT THE EXPRESS OFFICE IS COMPLETED.

The addition to the Southern express office was completed last week and the large entrance is now at the extreme south end of the depot, while the smaller doors, giving entrance to the delivery counters, are just south of the baggage room.

The interior arrangements have been changed and all the available space used to the best advantage. A counter extends from the east to the west doors, over which the business for the office is transacted, while the safe and desk room has been enclosed on the east side, leaving the main floor space for the storage of packages.

OLD FEDERAL BUILDING TO BE OFFERED FOR SALE.

WASHINGTON, Dec. 20—Sealed proposals for the purchase of the old Federal Building at Providence, R. I., will be opened this afternoon at the Treasury Department. No offer of less than \$300,000 will be considered. The edifice was formerly used as a Custom House and postoffice.

AGED MURDERER TO PAY THE PENALTY.

EDMONTON, Alta., Dec. 20—Tomorrow is the day set for the execution of Henrika Zibihley, the aged wife murderer who has been confined in the barracks at Fort Saskatchewan since early in November. Zibihley was convicted of murdering his wife by battering her down with an axe, at the home of her son, near Mundare, on September 12th.

PROMINENT CONTRACTOR ON TRIAL FOR WIFE MURDER

HACKENSACK, N. J., Dec. 20—The trial of William E. Westervelt, charged with wife murder, was begun before Judge Parker here today. On June 16th, last, Westervelt, who was a prominent contractor, killed his wife in his home at Teaneck.

Mrs. W. B. Shafer arrived last week from Norfolk, Va., and joined her parents, Capt. and Mrs. A. N. Marshall, on North Beach street. Mrs. Shafer was called here by the indisposition of Capt. and Mrs. Marshall, both of whom were well when they arrived some weeks ago.

DISTILLED WATER TO BE USED AT DAYTONA BOTTLING WORKS.

Ben Livingston has put in a distilling apparatus at the Daytona Bottling Works and hereafter only distilled water will be used in the manufacture of the various products of the works. A metal covered addition was made in the rear of the building and in this is located the boiler and a twenty-five barrel copper tank and coil, through which the artesian water is passed, freeing it of magnesia and other substances and adding to the life and keeping qualities of the many enticing soft drinks put up by Mr. Livingston.

RATS CUT LEAD PIPE IN ORDER TO GET AT WATER.

W. B. Chittenden, of North Ridgewood avenue, recently had an experience with rats which demonstrated the instinct or intelligence of these rodents and at the same time cost him a plumber's bill.

On using the bathtub on their return from the north it was found that instead of passing off as it should the water was escaping under the flooring.

An examination was made and it was found that the rats had cut the lead pipe of the trap in several places to get at the water it contained, each time cutting above and not below the water line, but following it with a series of openings as it receded. Of course when the water was released from the tub it escaped at these openings.

The marks of sharp teeth are plainly visible in the pipe, which had been as neatly cut as though it were paste-board.

POSSIBLY SOMEONE KNOWS WHAT THIS MAY MEAN.

The following request, taken from the Boston Globe, may be explainable by some Bostonian residing or sojourning in this city.

"REQUESTS"

Dear Daytona, Fla.—I shall be greatly pleased if you will send me Home-mater's Cottage pudding. Received a Daytona, Fla., postcard a few weeks ago. Instantly my thoughts flew to our Globe "Daytona, Fla."

HOW A CIRCUS HELPS BUSINESS WITH MERCHANTS.

CIRCUS INCREASES BUSINESS AT LOCAL STORES--VAST AMOUNT OF FEED REQUIRED FOR THE ANIMALS.

That it does local merchants some good to have a big circus like the Sun Brothers' Progressive Show come to town is evidenced by the large orders for feed which have been made. Merchants who supply the circus with feed are getting a steady and profitable business. The amount of material to feed the animals is vast.

Circus people like to live well and only the best of everything is used in the commissary department. That a big show leaves a liberal help of money in a city is evident from the contracts made here. To a local grocery house the mammoth order for 800 pounds of coffee was given. From an equally well known grocery house \$200 worth of groceries was contracted for. An order for \$225 alone went to one butcher. Several hundred loaves of bread feed the hungry maw of the circus people daily, and these are come from the local bakers. Hay, oats, straw and a host of other necessities were purchased in the city.

The money carried out of town by a circus is largely extra money by out-of-town people who come to see the show. The money received from town is more than offset by the sums paid out in a city for supplies and other necessary expenses.

Howe's Great London Shows will exhibit in Daytona next Wednesday afternoon and evening.

THE COMING OF A CLEAN AND PROGRESSIVE CIRCUS.

SUN BROTHERS' GREATER PROGRESSIVE SHOWS WILL EXHIBIT IN DAYTONA TUESDAY AFTERNOON AND EVENING.

There's a time for work and a time for play and a time to laugh--that's Show day. So be it and that it may be so, the Sun Brothers' Greater Progressive Shows will exhibit in Daytona tomorrow, matinee and night. The show grounds will be located on the lot west of the F. E. C. Ry. freight depot.

This always excellent, snappy and up-to-date tented show comes with a brand new outfit from stem to stern. The name "Sun" is synonymous with good entertainment and all that is original in the tented field endeavor. The show this season has added enough new features, animals and acts to virtually make it a new show throughout.

The "Main Top" program is styled as a "triumph of Arenic marvels," and includes among the list of participants, such disainguished names as The LaPasque Troupe, a company of novel Tremplin Triple Bar performers, who are said to be the greatest of their class extant and are the very incarnation of grace, agility and skill; the others are, the Avalon Troupe, a trio of high-wire aerialists and unique "casting" expositors; Francis Boyle and company (14 people) in a spectacular novelty entitled "Clubdom" and "Hoopland," in which they introduce a remarkable display of Ambi-dexterity and feats of juggling heretofore unknown; others include Harvey and Adams, Jack Murray, Eddie Vernello, E. Kirke Adams and company, the Atlas Troupe, Miss Chlorine Wenzell, Miss Josephine, Miss Belle Young, Walter and Minnie Ashborn, Brothers Ortana, William O'Dale, Frank F. La Velle and others.

The animal department is greatly augmented and serves to exhibit everything of interest and worth in the animal kingdom.

As in all past seasons, in fact, since the inception of the show there are no off color issues, gamblers and ticket scalpers allowed to travel in the wake of the aggregation, nor are this despicable class permitted to get near show or its exhibition ground. A trio of special detectives travel with the show to assist the local officers and authorities in preserving order and also to assist in looking after the wants of their patrons.

Strange Lapse of Memory.

Cases of forgetfulness on matters of interest are on record. While Dr. Priestly was preparing his work entitled "Harmony of the Gospels" he had taken great pains to inform himself on a subject which had been under discussion relative to the Jewish Passover. He wrote out the result of his researches and laid the paper away. His attention and time being taken with something else, some little time elapsed before the subject occurred to his mind again. Then the same time and pains were given to the subject that had been given to it before, and the results were again put on paper and laid aside. So completely had he forgotten that he had copied the same paragraphs and reflections before that it was only when he had found the papers on which he had transcribed them that it was recalled to his recollection. This same author had frequently read his own published writings and did not recognize them.

A Question For the King.

Divinity doth not always hedge a king. There have been many rulers who could take as well as give in the joking line. The most striking instance of this kind is seen in the case of Charles II. that good natured Stuart, who once asked his chaplain, Dr. Stillingfleet:

"How is it that you always read your sermons before the lords? I understand you can speak eloquently enough, else where, even a lack of notes?"

The good doctor answered that he was so overwhelmed by his majesty's presence that he could not trust himself otherwise, continuing: "And now, sire, may I please you to tell me why you read your speeches when you have no such excuse?"--St. Louis Republic.

Her Own Coin.

There was quite a scene the other night at a certain bridge party. A loser paid a lady with her own I. O. U.'s. The lady said it was most ungentlemanly. She said she wouldn't have minded being paid back in her own coin, but she disliked paper money--Exchange.

The Harder Part.

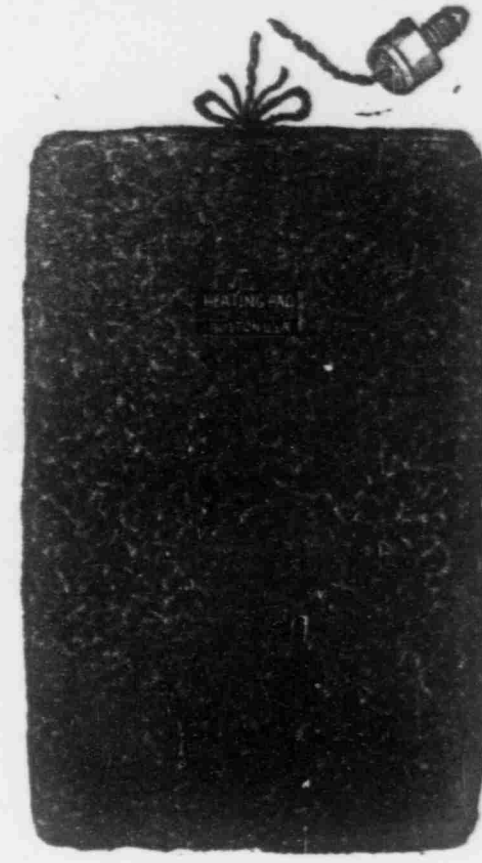

"It is hard to teach an old dog new tricks," quoted the wise guy. "Yes, it's hard to find the new tricks," added the simple guy--Philadelphia Record.

Well Bred.

Gentleman--That looks a well bred dog. Owner--I should think he was well bred. Why, he won't have a bit of dinner till he's got his collar on!--Punch.
